

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 1 through 15, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 1 through 15, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of April 1-15, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (April 1st – 15th)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency:	Federal Energy Regulatory Commission
Contact:	John Mudre
Telephone:	(202) 219-1208
E-mail:	N/A
Address:	888 First Street, NE, Washington, D.C. 20426
Description:	In a letter to Pacific Gas and Electric Company, dated April 9, 2002, the Commission requested additional information for Pit 3, 4, 5 relicensing.
Comment By:	N/A

Agency:	Federal Energy Regulatory Commission
Contact:	Kenneth Hogan
Telephone:	(202) 208-0434
E-mail:	Kenneth.Hogan@Ferc.Gov
Address:	888 First Street, NE, Washington, D.C. 20426
Description:	On April 8, 2002, the Commission issued a notice of intent to file application for a new license for the Kilare-Cow Creek Project No. 606. This project is located in Shasta County, California. The project consists of two powerhouses with an installed capacity of 5000 kilowatts.
Comment By:	N/A

CEQA Documents

Key for abbreviations of Document Type :

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, April 01, 2002</u>			
2001101127	Miles Avenue Bridge Replacement Over the Whitewater River Channel Indian Wells, City of Indian Wells--Riverside The applicant proposes to alter the streambed to widen an existing two-lane culverted road to a four-lane permanent bridge crossing. The proposed project will result in 0.41 acres of permanent impacts and 0.09 acres of temporary impacts to fresh-water marsh habitat and 0.132 acres of temporary impacts to non-wetland waters. Removal of the road and culverts will result in the restoration 0.158 acres of non-wetlands waters and streambed within the project area.	NOD

<u>Documents Received on Tuesday, April 02, 2002</u>			
2002042007	General Plan Amendment No. 2002-02 and Rezone Application No. 2002-06 Kit Fox Vineyard Winery Stanislaus County Patterson--Stanislaus Request to change general plan and zoning designations from Agriculture (A-2-40) to PD (Planned Development) to allow 3.6 acres of a 46.77 acre property to be used for a 7500 square foot winery, tasting room/cafe and retail sales facility.	CON	04/16/2002
1992024007	Santa Ana River Mainstream Project U.S. Army Corps of Engineers Huntington Beach--Orange The proposed project activities have been reviewed by the U.S. Army Corps of Engineers as required by the Coastal Zone Management Act of 1972. The Corps finds this project to be consistent to the maximum extent practical with the articles and provisions of the CZMA and the California Coastal Act. The Coastal Commission staff previously concurred with a Negative Determination that was submitted in 2000 for a similar project in Reach 1. The Commission has also concurred with a Consistency Determination prepared in 1988 for the initial construction of the Lower Santa Ana River. The Corps has therefore determined that a Negative Determination is appropriate for the Reach 2 maintenance project, since it is essentially the same project as originally submitted for review, and is similar to previously authorized projects.	EA	04/29/2002
1997121030	Roripaugh Ranch Specific Plan-Revised Draft EIR Temecula, City of Temecula--Riverside The current project proposes 2,058 units on 804.7 acres, including 1,044 low and low medium density single family units and 1,014 medium density single family units. The project also includes 15.4 acres (110,000 square feet) of commercial uses, a 12-acre elementary school site, a 20-acre middle school site, a 5.1 acre neighborhood park, a 19.7 acre community park with lighted athletic fields, 9.1 acres of private recreational facilities, 202.7 acres of biological habitat, 56.6 acres	EIR	05/17/2002

	employee daycare, work-out, and cafeteria facilities also. The Agreement would also allow for buildings up to 80 feet in height (which is higher than the 50 feet normally allowed by the Development Code) with appropriate supplemental setbacks from Margarita Road and Solana Way. Guidant Corporation would also receive the City's approval to expand their operations onto this site.		
2002041011	Conditional Use Permit/ Parking Permit No. 01-262 Los Angeles County Department of Regional Planning Huntington Park--Los Angeles This is a Conditional Use Permit application to allow continued operation of an existing scrap metal processing and recycling yard. The operation was permitted under CUP No. 89-347. End products are for both domestic and oversea uses. There are two existing structures on site: one is a covered structure of approximately 46,500 sq. ft. for scrap metal processing and recycling activities; the other is an office building of 2,379 sq.ft. The operation is proposed to be between 7:30am to 4:00pm with about 20 employees in one shift. This application also includes a Parking Permit: 117 parking spaces are required, but only 62 spaces will be provided.	Neg	05/05/2002
2002041013	Initial Study for the Library and Resource Technology Center Project Fontana, City of Fontana--San Bernardino The Civic Center Campus Master Plan was completed in early 2000. A focal point of the Master Plan includes the development of a new state-of-the-art Library and Resource Technology Center. This new Library will replace the existing 13,000 square foot County-operated library. Based on the size of the community, and the needs of patrons, the new Library will encompass approximately 95,000 square feet on a 2.1 acre site. The Library is designed as a two-story structure over a 187 space parking garage. The City Council has chosen a Spanish Architectural style for the Library. The new Library will include children, young adult, fiction, nonfiction, reference, historical museum, and audiovisual sections. Public meeting rooms, a coffee shop, and a 350-seat auditorium will complement the facility. Computer labs, a career center, and literacy center (jointly staffed by participating school districts) will serve special needs in the community. The City will house its Information Systems Division in the Library close to the computer labs.	Neg	05/01/2002
2002042001	Mid-Peninsula New Communities at Pinto Lake Santa Cruz County Watsonville--Santa Cruz The applicant proposes to convert a recreational vehicle park to a permanent occupancy, affordable, residential park to include 52 residential units (including a manager's unit), a community center, two playgrounds, site parking and circulation and three lake viewing docks. This proposal requires a Residential Development Permit, an Agricultural Buffer Reduction, Riparian Exception, Geologic Report Review, Soils Report Review, Biotic Assessment and Preliminary Grading approval to grade approximately 23,000 cubic yards. Primary access to the site will be from Amesti Road.	Neg	05/01/2002

2002042003	Longs Drug Store - Soscol Avenue Napa, City of Napa--Napa Request to demolish the existing commercial buildings at 222 Soscol Avenue and construct a 17,223 square foot Longs Drugs Store on this property and the vacant parcel to the south. The proposed one story building will be located in the south end of the property with a 93-car parking lot along the north side of the property. Project approvals include: 1) a Rezoning of the project site from CH:FP:TI, Heavy Commercial:Flood Plain:Traffic Impact Overlay Zoning District to CC:FP:TI, Community Commercial:Flood Plain: Traffic Impact Overlay Zoning District; 2) a Use Permit to authorize a site development plan for the construction of a 17,223 square foot commercial building; and 3) Design Review of the building and site plan.	Neg	05/01/2002
2002042004	Stonebridge Cellars Use Permit; a.k.a. Phelps Farmworker Housing Project (Use Permit #02028-UP) Napa County St. Helena--Napa Establish and operate a 60-bed farmworker housing facility and associated infrastructure on a proposed parcel of -7.0 acres. The proposed facility will contain (4) buildings, totaling approximately 12,734 sq.ft. of floor area and +/-53,367 sq.ft. of total site area, including driveways and parking area. Cave spoils from an off-site cave excavation will be crushed and applied to roads on-site as road base. The square footage use is proposed as follows: The construction materials will be rammed earth, utilizing other recycled materials including beams salvaged from an old construction project and the use of cave spoils for the construction of the parking areas. Heating is via a radiant floor heat system. The facility is designed to utilize sunlight as a primary source of lighting. During night hours the lighting will be via low-wattage fluorescent lighting.	Neg	05/01/2002
2002042005	Victory Lane Residence Santa Cruz County --Santa Cruz Proposal to construct a single family dwelling, remove 2,016 cubic yards of un-permitted fill and replace as re-compacted engineered fill, construct a riprap buttress, complete drainage improvements, reseed and landscape for erosion control, and install an irrigation system. Requires a Major Riparian Exception and Grading Permit. The property is located off Soquel Drive, 1/4 mile north on Victory Lane, on the right, in the Soquel planning area.	Neg	05/01/2002
2002042006	Oropeza-Gutierrez Parcel Map Sacramento County --Sacramento A Tentative Parcel Map to divide +/-5 acres into two lots on property zoned AR-2 (Agricultural-Residential 2), and an Exception from Title 22.24.630(2) (the County Land Development Ordinance) to allow private wells. 2002042045	McKenney Final Map Subdivision Humboldt County Planning Department Eureka--Humboldt A subdivision of a 9.2 acre parcel into 22 individual lots ranging in size from 6,022 square feet to 5.93 acres (lot includes gulch-greenway) with an average parcel size of 8,700 square feet. A new roadway is proposed to transect the site, with lots on either side of the road. The roadway is proposed to be within a 36' private access easement and to be maintained by a road maintenance association. A 20' wide access easement will allow access to parcel 6, 9 and 10 that are considered flag lots. Appropriate roadway widths and turn around are proposed for the Fire Department Equipment maneuverability. The Parcel was previously logged. Existing redwood trees located in proposed roadway are proposed to be removed. Some limited clearing and stump removal activities were conducted by the Owner in Oct.-Nov. 1998. After consultation the Department of Fish and Game, the owner's consultant has prepared a remediation plan to mitigate for possible impacts on riparian vegetation. Each lot is proposed to be occupied by a single-family residence. Humboldt Community Services District will provide water and sewer services. PG&E will supply gas and electricity, Pacific Bell will provide telephone services and Cox Cable will provide cable television service. All the services and utilities will be placed underground to the specifications of the affected public agencies. Proposed lot 4 has an existing 1500 sq. ft. residential structure.	Neg	05/01/2002

<u>Documents Received on Tuesday, April 02, 2002</u>			
2002048007	Carlson Park Lighting and Tower Painting Riverside, City of Riverside--Riverside The project consists of providing additional area lighting at the park to help avoid vandalism and graffiti and repainting two existing historic towers in the park to accent these towers at a main entry into the City.	NOE	
2002048008	Fairmount Park Lighting System Rehabilitation Riverside, City of Riverside--Riverside The project consists of renovation and construction of new lighting systems for pathways, parking lots and use areas within Fairmount Park, the City's second oldest park site, using period style poles and fixtures both to reduce energy consumption as well as to improve light levels and aesthetics within the park's historic entrance.	NOE	
2002048009	Drainage Ditch Maintenance Fish & Game #3 --Alameda The operator proposes annual routine maintenance of a 300 foot section of drainage ditch flowing into Bockman Canal at 2600 Grant Avenue, San Lorenzo, Alameda County. The 300 foot section of ditch runs south from Grant Avenue to the fence at the end of the building. The operator proposes to remove vegetation and human generated debris from the drainage ditch to maintain water flow. Issuance of Streambed Alteration Agreement Number R3-2002-0091 pursuant to Fish and Game Code Section 1601.	NOE	
2002048010	Bridge Mitigation on an Unnamed Tributary to Arroyo del Valle Fish & Game #3 Livermore--Alameda The following is required to mitigate for the impacts of the non-permitting activities. To mitigate for the impacts to the stream and California red-legged frogs (CRLF) habitat, the operator shall submit to the Department a revegetation plan for 1000 linear feet of the unnamed tributary to Arroyo del Valle. Additionally, the operator shall work with the vineyard manager to determine if vineyard irrigation rates can be reduced or captured to attempt to return seasonal flows to this stream. The subsurface or nuisance flows of the vineyard irrigation is contributing additional water to the stream, allowing year round flow and creating a habitat more suitable to the bullfrog. These irrigation practices, if they can be modified, will allow the stream to dry up and create more suitable habitat for CRLF. Issuance of a Streambed Alteration Agreement Number R3-2001-0987 pursuant to Fish and Game Code Section 1603.	NOE	
2002048011	Agreement No. R4-2001-0156; North Fork of Little Dry Creek, Fresno County Fish & Game #4 --Fresno Construction of a 60-foot long by 5-foot wide foot bridge, with reinforced concrete footings, across the North Fork of Little Dry Creek for the nature trail access. Construction of two (2) gravel rock paths approximately 60-feet long by 3-feet wide across the North Fork of Little Dry Creek for access to nature trails.	NOE

	the C-2 (General Commercial) Zone, on 2 parcels containing a total of approximately 3.35 acres of property. The applicants desire zoning which would allow the development of a mini-mart/gas station on the southern parcel (the Gregory property), and renovation of the existing gas station on the northern parcel (the Stanley property). Before such zoning can be considered, a General Plan Amendment to the Visalia Land Use Plan and the ERME - Open Space Element is required which changes the land use designation from "Agriculture" and "Intensive Agriculture" to "Commercial" or "Highway Commercial".		
2002041033	Project No. 01-096/Parcel Map No. 20685 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles An application to divide the subject property into 24 lots including 21 industrial lots, 1 open space lot, and two water well lots. This parcel map was approved with a different lot configuration on August 27, 1996. This site has been part of the Valencia Commerce Center Project. The site is currently used for agricultural purposes.	Neg	05/06/2002
2002041035	Centre City Parkway/Mission Avenue Intersection Improvements Escondido, City of Escondido--San Diego The proposed project is to widen Centre City Parkway (north and south of Mission Road) to accommodate an additional northbound and southbound through lane. In addition, Mission Avenue (east and west of Centre City Parkway) will be widened to accommodate dual left-turn lanes, a westbound right-turn pocket, relocating of existing utilities, and the extension of existing storm drain facilities. The proposed project also includes curb return improvements, median construction/modifications, median/streetscape landscaping and traffic signal modifications. Right-of-way will be required from several properties adjacent to the project. Fourteen parking spaces will be removed from private properties as a result of right-of-way acquisition.	Neg	05/08/2002
2002041036	Via Las Brisas Subdivision San Marcos, City of San Marcos--San Diego The project proposes to subdivide 36.5 acres into 28 single-family lots or parcels. The project also requests Grading Variances to allow slopes exceeding 20 feet in height along the northwestern and the southeastern portion of the site.	Neg	05/06/2002
2002042019	Revised Subdivision Ordinance, Zone Amendment No. 02-01 Hercules, City of Pinole--Contra Costa The project is a revision to the Subdivision Ordinance of the City of Hercules to comply with the State Subdivision Map Act.	Neg	05/06/2002
2002042020	Draft Housing Element, General Plan Amendment No. 02-01 Hercules, City of Pinole--Contra Costa The project is a revision and update of the City of Hercules existing Housing Element.	Neg	05/06/2002

1991023061	Lloyd Inglis Major Subdivision (MJ9106C) Del Norte County SMITH RIVER--DEL NORTE Amendment to previously approved Nautical Heights subdivision for various modifications to this 22 parcel plus remainder parcel project.	NOD	
1995103063	State Route 70 Upgrade Caltrans, Planning Marysville, East Nicolaus--Sutter, Yuba The California Department of Transportation approved an EIR for State Route 70 improvements including an upgrade of the existing two-lane conventional highway to a four-lane expressway and eventual four-lane freeway to accommodate increasing traffic throughout corridor. Full build-out of the freeway would include four interchanges located at Striplin Road, East Nicolaus Avenue, Berry/Kempton Road, and Feather River Boulevard. The project will use the existing route as the southbound lanes and will construct two new lanes for the northbound freeway section. The project will result in impacts to Swainson's hawk and giant garter snake, which are protected under the California Endangered Species Act, requiring issuance of California Incidental Take Permit ("Permit").	NOD	
2000051019	Men's Colony Wastewater Treatment Plant Upgrade and Trunk Sewer Line Replacement Corrections, Department of San Luis Obispo--San Luis Obispo The project will replace the existing main sewer line at four locations where it crosses the creek. Three of the crossings will be elevated, and one will cross a tributary upstream from the creek. The project is located approximately 5 miles northwest of the intersection of Hwy 101 and State Hwy 1, in San Luis Obispo County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0350 pursuant to Section 1601 of the Fish and Game Code to the project operator, Mr. Paul Helwer.	NOD	
2001041032	Corona Avenue and Valley View Avenue Street Extension Norco, City of Norco--Riverside The proposed project consists of the extension of Corona Avenue and Valley View Avenue to connect with Hidden Valley Parkway (formerly Yuma Drive) in the City of Norco.	NOD	
2001062052	Schulties Road Repair Santa Cruz County --Santa Cruz Proposal to repair storm damage to Schulties Road by replacing a failed riprap wall and incorporating bioengineering techniques. This project requires the grading of approximately 475 cubic yards of cut and/or fill on the bank of Burns Creek. Project is located within the existing right-of-way and between Schulties Road and Burns Creek approximately 2 miles south of Summit Road. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0218 pursuant to Section 1601 of the Fish and Game Code to the project operator, John Swenson/Santa Cruz County Department of Public Works. 2001111162	The Ontario Center, Sale of 12.79 acres of Installation of Fourth Street Storm Drain Ontario, City of Ontario--San Bernardino A Tentative Parcel Map for the subdivision of 167.09 acres into six parcels totaling 32.78 acres and a 114.31 acre remainder parcel, in the Urban Commercial land use designation of the Ontario Center Specific Plan.	NOD	
2002021026	Snelling Bridge Replacement Caltrans #6 --Merced The State of California Department of Transportation (Caltrans) and the U.S. Department of Transportation, Federal Highway Administration (FHWA) proposes to reconstruct the Merced River Bridge on State Route (SR) 59 in Merced County to provide greater structural integrity and to meet current safety standards.	NOD	
2002021092	California City Compressed Natural Gas (CNG) Fueling Station California City California City--Kern The project will be an unattended CNG fueling station maintained by existing City staff and an outside vendor. The CNG fueling station will be available for public use. The design and construction of the CNG Fueling Station will be 90% funded through a CalTrans CMAQ Grant.	NOD	
2002022053	City of West Sacramento Enterprise Zone Five-Year Time Extension West Sacramento, City of West Sacramento--Yolo The City's Enterprise Zone provides various tax credits and other financial incentives to businesses when they locate in the Zone. These include hiring tax credits, net operating loss carryovers, and manufacturers; investment tax credits. The existing Enterprise Zone will expire on January 10, 2003 and the City will be applying to the California Trade and Commerce Agency for a five-year extension. No changes in the Zone's boundaries are proposed. No specific developments are associated with the time extension. No General Plan or zoning changes are proposed either.	NOD	
2002022082	Solids Handling System San Juan Water District Folsom--Sacramento Settled solids from sedimentation basins at the SJWD plant are pumped directly to these sludgehandling facilities. Space on the site is limited and it has been a labor-intensive operation to constantly spread and move around sludge to handle production requirements. Mechanical dewatering facilities (belt filter presses) are recommended at the existing water treatment plant site to alleviate these difficulties. The proposed project consists of a new solids handling facility that will consist of sludge thickeners, belt filter presses, a chemical feed system, and return water pumps.	NOD

2002021036	<p>City of Hanford General Plan Update 2002 Hanford, City of Hanford--Kings</p> <p>Update of General Plan (except Housing Element to be updated later this year) elements including land use, circulation, hazards management, open space, conservation and recreation, and public facilities and services. The General Plan planning area will remain identical to the current General Plan (1994) except for the addition of approximately 125 acres east of Highway 43 along Lacey Boulevard. Land Use Map amendments are considered minor and do not substantially increase overall density or intensity of development in the Planning Area. Land Use Map changes also show locations of existing and planned school facilities. Policy amendments address Planned Commercial, Planned Office, 10th Avenue, Grangeville Office uses, Office conversion of historic structures (Douty, Irwin, and Redington), Planned Development Highway (Highway 43 and Lacey), and low density.</p>	EIR	05/28/2002
1995121025	<p>West Basin Marine Terminal Improvement Subsequent Los Angeles County Dept of Beaches And Harbors --Los Angeles</p> <p>Projects proposed to be assessed in detail in the SEIR include: the Berths 100-102 Terminal Development Phases II and III; the potential removal, remediation, and reuse/modification of the liquid bulk terminals at Berths 118-120 and Berth 149; the consolidation of the area from Berths 136-149 as a single facility; and the necessary dredging, wharf renovation and new wharf construction to provide -53 feet berths throughout the West Basin.</p>	NOP	05/07/2002
2002041044	<p>Buena Vista/Rosedale-Rio Bravo Water Banking and Recovery Program Buena Vista Water Storage District Bakersfield--Kern</p> <p>The Buena Vista/Rosedale-Rio Bravo Water Banking and Recovery Program involves the recharge, groundwater banking, and recovery of water by Buena Vista Water Storage District (BVWSD) within the service areas of BVWSD and Rosedale-Rio Bravo Water Storage District (RRBWSD). Approximately 80,000 AF of BVWSD Kern River wet year water and other acquired waters will be captured and recharged within the RRBWSD service area. These recharged waters will be banked along with groundwater previously recharged within the Kern River Fan Area by BVWSD. It is estimated that upwards of 20,000 AF/Yr of banked water may be recovered or withdrawn from the banking program in order to supply water demands. Water recovered under the program may be delivered to third party customers inside and outside of the basin and Kern County. The primary method of recovery/delivery will be via exchange of State Water Project (SWP) supplies that would otherwise have been delivered within BVWSD and RRBWSD for direct recharge or irrigation purposes. RRBWSD will construct three additional extraction wells in RRBWSD's west-side well field in order to make up any shortfall during SWP water shortage years. In BVWSD, pumping from landowner and BVWSD wells will be increased in order to offset SWP exchange deliveries and satisfy irrigation demands.</p>	NOP	05/07/2002

	Kirkwood Mountain Resort's (KMR's) draft specific plan (Draft Plan), their proposed ski area mountain master development plan (MMDP) and a planned upgrade of the community's wastewater treatment plant (WWTP). The Draft Plan outlines a course of development for the private land at Kirkwood to establish the community infrastructure, housing, commercial services and recreational opportunities intended to make Kirkwood a four-season destination resort. The MMDP addresses proposed development, primarily on adjacent National Forest land, to upgrade winter recreational activities including alpine and cross country skiing and snowboarding. The WWTP upgrade is designed to meet the increased demand placed on this public utility by projected increases in visitor and resident populations.

	100- to 120-foot-tall communications tower would be erected adjacent to the main building. A 2,400 square foot practice range building and a 4,000 sq. foot warehouse would be constructed. All parking facilities would be at ground level. Concurrent with construction of the police facilities, approximately 2,000 feet of 12-inch sewer line would be installed in the County Road No. 8 easement between the West Interceptor near March Creek and the site. In addition, an 84-inch buried drainage pipe would replace the existing drainage ditch in this easement.		
2002042046	GPA 02-01 and ED 02-02 Anderson, City of Anderson--Shasta A General Plan Amendment to abandon a designated collector street (Lassen Way, see exhibit A) in an effort consolidate the Shasta District Fairgrounds property that is currently bisected by Lassen Way.	Neg	05/08/2002
2002042047	Design Review/Conditional Use Permit #00-029 Livermore, City of Livermore--Alameda The proposed facility will have an aggregate floor area of 78,000 square feet. The two primary structures have varying roof heights, pitched roofs, clerestory windows and roof vents, and a variety of building forms and materials. The Community Center, located nearest East Avenue, will be a two-story structure with public uses on the first floor and LARPD offices on the second. The Recreation Building is a single-story structure with a vaulted, two-story ceiling over an indoor gymnasium. There are also two accessory buildings, a pool area, and several outdoor-oriented activity areas. Adjacent improvements will include addition of tot-lots and basketball courts, among other amenities.	Neg	05/08/2002

2000121077	<p>Segunda Deshecha Canada Channel Improvements IP 00-164 Orange County Garden Grove, Los Alamitos, Seal Beach--Orange CDFG is intending to execute a Lake and Streambed Alteration Agreement (SAA #R5-2001-0067) pursuant to Section 1601 of the Fish and Game Code to the project applicant, County of Orange, Planning & Development Services Department. The applicant proposes to alter the streambed to replace the existing 12 to 16 foot variable width concrete trapezoidal channel with a 20.7 foot wide by 10 foot high single barrel box culvert between El Camino Real and Avenida Pico located in the City of San Clement. The length of this section is 400 feet. Upstream of Avenida Pico, the existing 12 to 16 foot concrete trapezoidal channel will be replaced with an 18 foot wide reinforced concrete open rectangular channel. Channel wall heights in this section will vary between 9 feet and 15 feet. The length of this open channel section which runs from Avenida Pico to the terminus of the project, is 3,600 feet. Thus, the total length of streambed impacted by this project (from El Camino Real to the project terminus) is 4,000 feet. A maintenance path and/or maintenance road will be constructed adjacent to the channel within the existing concrete right-of-way. In addition, the Operator proposes constructing a water diversion structure within the stream channel in anticipation of a proposed water quality enhancement project to be developed and implemented by the City of San Clemente. The applicant's mitigation measure include: construction of twelve sediment retention bumps ("speed bumps"), four inches (4") high, along the concrete bottom to allow sediment to be trapped and remain in the channel during low flow periods, for the purpose of providing a substrate for wetland plants and animals; installation of a trash debris boom downstream of Calle de Los Molinas to remove debris associated with the "first flush"; and construction of slots in the downstream section of the channel invert and channel walls near Avenida Pico to provide a secure point to install removable barricades - to dam the channel and prevent hazardous materials or sewage spill from reaching the ocean if necessary.</p>	NOD

2001071142	Creekbridge/Rava Annexation Greenfield, City of Greenfield--Monterey Consists of the annexation of approximately 47 acres of agricultural land into the City of Greenfield. A total of seven parcels are included in the proposed annexation. The project is located immediately east of the incorporated City limits of the City of Greenfield and is within the City's designated Sphere of influence and Urban Service Area. The application also proposes rezoning of the annexation area for low-density residential use at 6 dwelling units/acre and a General Plan Amendment. The entire area is planned for up to 282 dwelling units single-family detached dwellings. A concept plan for a neo-traditional subdivision design and eventual tentative subdivision map for 19 acres owned by the project applicant, Creekbridge Homes, are expected to follow the annexation. No subdivision maps or detailed site plans are proposed as part of the annexation request. The initial 19-acre portion will be considered a "first phase" to be carried out in the first 2-5 years after annexation. The remainder of the proposed annexation area is assumed to be developed within approximately 10 years. Infrastructure, lot platting and other improvements will be discussed as characteristics of future development proposals within the annexation area.	EIR	05/30/2002

2001061053	California State University San Marcos - Master Plan Revision - Student Housing and Associated Facilities California State University Trustees San Marcos--San Diego The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2002-0052 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. Russell Decker, representing CSU, San Marcos. The applicant proposes to alter the streambed within an unnamed drainage, tributary to San Marcos Creek, to accommodate the construction of the California State University, San Marcos Student Housing and Associated Facilities Project. Project activity includes the construction of buildings for student housing, a parking lot, and a police station with associated utilities, impacting 2.4 acres of streambed.	NOD	
2001121044	14th Street/Wilson Creek Crossing Yucaipa, City of Yucaipa--San Bernardino Construct concrete bridge across Wilson Creek channel and extend 14th Street easterly to Oak Glen Road.	NOD	
2002012024	City of Palo Alto Landfill Changes in Hours of Operation Palo Alto, City of Palo Alto--Santa Clara Currently, the landfill public hours are 9:00 a.m. to 5:00 p.m. Tuesday through Sunday, and 9:00 a.m. to 1:00 p.m. on Monday. The landfill is closed on four holidays; Thanksgiving, Christmas, New Year's Day, and Easter. The City of Palo Alto Landfill is proposing to open one hour earlier at 8:00 a.m. Monday through Sunday and to be open from 1:00 p.m. to 5 p.m. on Monday afternoon. Therefore, the proposed landfill schedule would be 8:00 a.m. to 5:00 p.m., seven days a week. The City is also proposing to be closed for three additional holidays, Memorial Day, Independence Day, and Labor Day. In addition to the Landfill's public hours change and additional holidays, the City is seeking to extend ancillary landfill operations to 6:00 p.m., seven days a week (i.e., refuse spreading, compacting and placing soil cover/alternative daily cover (ADC-tarp) at the active face, one hour beyond the 5:00 p.m. public hours closure for accepting refuse).	NOD	
2002012033	Truckee Tahoe Airport Master Plan Amendment and ALP Update Truckee Tahoe Airport District Truckee--Nevada, Placer The Amendment/Update modifies the approved Airport Master Plan by redesigning the westside hangar area to account for the final rights-of-way of the Highway 267 Bypass and Joerger Drive, and removes the proposed south hangar area, as requested by representatives of Placer County. The revisions allows the airport to implement the intent of the previously approved Airport Master Plan and meet the long-term (20 year) demand for the aviation facility.	NOD

1982040157	City of Ridgecrest Housing Element Ridgecrest, City of Ridgecrest-- Includes the certification and adoption of an update to the City of Ridgecrest's Housing Element of the General Plan and its goals, policies and programs related to housing in the City. Adoption of the Housing element will not include the approval of any specific projects. Projects proposed in accordance with the adoption of the Element will be evaluated for individual impacts before their development.	Neg	05/13/2002
2001011057	James Irrigation District - District Groundwater Recharge Basin James Irrigation District San Joaquin--Fresno The James Irrigation District (JID), proposes to construct a groundwater recharge basin located approximately 1.5 miles northeast of the town of San Joaquin. The site is approximately 266 acres in size and is adjacent to the District's Main Canal. This project is intended to improve JID's groundwater recharge capability and lessen the groundwater overdraft within the district. During flood release years on the Kings River, flood waters will be diverted into the District's main canal and delivered to the basins for groundwater recharge. In addition to Kings River flood waters, the District will divert San Joaquin river water that is currently pumped from the Mendota Pool into the basins. This will provide regulation and greater efficiency in delivery of surface waters.	Neg	05/13/2002
2002012028	Development of the Empire Neighborhood Park Stanislaus County --Stanislaus A grant is being requested from the Land and Water Conservation Fund to develop the recently acquired land for the purpose of developing a neighborhood park in the unincorporated community of Empire, California (Stanislaus County). 	project applicant, Terry Smith of K.T.K. Constuction, Inc. The applicant proposes to alter the streambed to construct four single-family houses on 6,000 square foot lots. Along the southern portion of the property is an unnamed tributary to the Santa Ana River, which is approximately 40 feet wide by 400 feet in length. Currently, the streambed runs through a concrete lined V-ditch above the property, and through an existing 54" concrete storm drain pipe downstream. Within the property site the streambed remains earthen lined. Grading for the house pads will require the realignment of the channel on the property; the location where the stream enters and exits the property will remain the same, however. Rip rap will be placed in some locations along the bottom of the streambed to prevent erosion. In no instance shall the rip rap extend more than an average of four (4) feet up the side of the stream bank. Unvegetated stream beds, banks, and slopes above the rip rap will be planted with native vegetation. The project is located in City of Orange in Orange County.		
2002048138	Filming at Mt. Home Demonstration State Forest Forestry and Fire Protection, Department of --Tulare Big Green Productions, Inc./Universal Pictures, Inc. will be granted a permit to film a portion of "The Incredible Hulk" movie at Hedrick Pond Campground, through the California Film Commission. The duration of this project will be 35 days (April 15-May 24) A prefabricated cabin and a rock facade will be placed within the main parking area and entrance to Hedrick Pond Campground. Tulare County plans on keeping the roads closed until May 20 to facilitate this project. A driving scene on a portion of the County Road will also be part of this project. No excavation or vegetation cutting will be permitted. The production company expects to have approximately 25-175 individuals involved with this project. Approximately 90 vehicles will also be involved with this project. The entire project is expected to be completed before the Memorial Day weekend, which is generally the start of the camping season. Special affects on site will consist of rain and fog. The fog machine is a water based prop. A balloon light and/or camera filled with helium maybe used on this project. In the event of deflation, electrical power is automatically shut off in the electronic box. All paints or other chemicals for touch up work on props will be non-toxic and non-hazardous substances.	NOE	
2002048139	Signal Ridge Powerline Replacement Forestry and Fire Protection, Department of --Mendocino This is a replacement of powerlines running from the PG&E powerline to Cold Springs Communications Lookout. This property is located at the end of Signal Ridge Road, Philo, CA., which intersects with Greenwood Ridge Road 5.5 miles southwest of the town of Philo. Access is from CA State Highway 128 to Greenwood Ridge Road (County Highway 132) to Signal Ridge Road. CDF has secured a right of trespass in writing from Nick Rossi, the owner of the property under the powerlines.	NOE

	maintenance in 2003. This would improve the monitoring program.		
2002048181	USFS - Los Padres NF Resource Planning 01/02 Parks and Recreation, Department of --Los Angeles, Ventura Complete a resource inventory and assessments necessary to prepare Biological Evaluations and Archeological Reconnaissance Reports on potential relocation of portions of designated routes and rehabilitation of trespass areas. Soil evaluations of potential reroutes and trespass restoration will be conducted. If viable alternatives that do not affect threatened or endangered species or archeological resources are available, an environmental analysis would be prepared by District Staff. The project will conduct resource surveys, prepare documentation of findings and prepare environmental analysis for those projects with viable alternatives. No ground disturbing work is proposed in this project.	NOE	
2002048182	USFS - Cleveland NF Corral Canyon Road Development 01/02 Parks and Recreation, Department of --San Diego Fund one half of the repair of potholes and chip seal of 6.7 miles of Corral Canyon Road. The Cleveland National Forest will contract for the laying of a 3/8" chip seal on top of the following existing road segments (National Guard Camp to Four Corners - 4.26 miles, Four Corner to Bobcat Meadow Campground - 1.428 miles, and Four Corners to Corral Canyon Campground - 1.04 miles).	NOE	
2002048183	USFS - Mendocino NF - Upper Lake Resource Mgmt. 2001/2002 Parks and Recreation, Department of --Lake The upper Lake Ranger District has five areas totaling 6.35 acres that are in need of rehabilitation. These five areas include: Catfish Pond, Deer Valley Ridge Trail, Pitney Ridge Enduro Routes, Mason Trail #17 Reroute, and Streeter Ridge Trail #27 Rehab. The funds requested will provide all supplies, materials, equipment costs and labor needed to complete the proposed rehabilitation projects. Each project has a different type of rehabilitation proposed.	NOE	
2002048184	USFS - Sequoia National Forest Resource Mgmt. 2001/2002 Parks and Recreation, Department of --Kern Perform biological evaluations; archaeological reconnaissance reports; soil evaluations and environmental assessment by forest service personnel or by contract on the OHV road and trail system, trails on private property, potential reroutes of red trails in the Piute Mountains on the Greenhorn Ranger District (RD). The studies will be performed on the designated and non-designated trails and roads. No ground disturbing activities are proposed.	NOE	
2002048185	USFS- Tahoe National Forest Resource Mgmt. 2001/2002 Parks and Recreation, Department of Truckee--Nevada 1) Comprehensive survey of the Stampede Bald Eagles to determine if OHV use is affecting the eagles that surround the reservoir. 2) Baseline survey of bald eagle habitat in the Little Truckee Watershed to determine if there are additional nesting pairs that are not known currently. 3) Baseline survey of suitable northern goshawk habitat with unknown occupancy in areas of designated OHV use. 4)	NOE

	Baseline survey of suitable willow flycatcher habitat with unknown identification of aquatic monitoring sites. 6) Development of a one time Noxious Weed Management Program specific to OHV use and associated OHV issues. The products that will be produced include: 1) An updated Forest GIS layers 2) An inventory report and 3) Development of Noxious Weed Management Guidelines.		
2002048186	USFS-Tahoe National Forest Acquisition 2001/2002 Parks and Recreation, Department of --Placer Acquire, through purchase, a 111.8-acre parcel of land on the Foresthill Ranger District that is surrounded by OHV trails within the Foresthill Riding Area. The purpose of the acquisition is to protect wildlife and to permanently protect the integrity of the existing designated OHV loop trail system that completely surrounds the property, by eliminating the potential for future conflicts, which would likely occur with development of the property.	NOE	
2002048187	Seismic Upgrade, State Office Building, Fresno General Services, Department of Fresno--Fresno The proposed project consists of the seismic upgrade of this five-story building in Fresno, and bring the building into compliance within acceptable risk levels. The proposed structural work includes, add new wall piers in four bays on each of the north and south sides of the building. The vertical extent of the new wall piers would be from the first floor to the roof on the north side and from the second floor to the roof on the south side. The project will add two bays of new infill shear walls in the basement and first floor. These walls will be dowelled into the existing columns and slabs, and would be aligned with the south perimeter wall above the second floor. These walls would be 12 inches thick and reinforced with two curtains of steel. Mechanical and electrical work on this project will be limited to relocation due to interference with the seismic work, or to coordination if the system components can remain in place. The addition of the shear walls to interior locations on the basement and first levels will require minor relocation of ventilation and air conditioning ductwork that pass through those points between the columns affected. The same will be true for a minor number of sprinkler and plumbing lines, as well as any small branch electrical or tele/data/com conduit.	NOE

2000051057	<p>Carlsbad Oaks North Business Park - EIR 98-08/GPA 97-05/ZC 97-05/SP 211/CT 97-13/HDP 97-10/SUP 97-07</p> <p>Carlsbad, City of Carlsbad--Alameda</p> <p>The project consists of four main components: Carlsbad Oaks North Specific Plan and Tentative Subdivision Map; Faraday Avenue extension; El Fuerte Street extension, and the South Agua Hedionda Sewer Interceptor. The four components of the project encompass approximately 650 acres of land located in the northeastern quadrant of the City. This area is generally located east of El Camino Real, north of Palomar Airport Road, south and west of the Dawson Los Monos Canyon Reserve, and west of the City of Vista. The Carlsbad Oaks North Specific Plan will guide the development of a 194.5 acre industrial park consisting of light industrial, office, and auxiliary commercial uses and preserves 219.5 acres of open space that is part of Core Area 5 in the City's Habitat Management Plan. The industrial park will consist of 23 industrial lots, one outdoor employee eating area or sewer pump station lot, and 3 open space lots. Faraday Avenue will be extended approximately 1.3 miles from its current terminus at Orion Street to its existing terminus in the City of Vista. El Fuerte Street will be extended from its existing terminus north of Loker Avenue to Faraday Avenue. The South Agua Hedionda Sewer, which will serve existing and proposed industrial development, is a 15 inch gravity-flow trunk sewer that will extend approximately 3.4 miles from the southeast corner of the project area to the northwest connecting with the existing Agua Hedionda trunk sewer located in Sunny Creek Road.</p>	EIR	05/29/2002
2001101165	<p>City of Cathedral City General Plan Update and Downtown Precise Plan Amendment EIR</p> <p>Cathedral City Cathedral City--Riverside</p> <p>The General Plan includes all mandated elements. Goals, policies and programs reflect current growth trends in the City. The City's current corporate limit encompasses 12,502 acres, and the Sphere of Influence includes 3,267 acres. The majority of the lands are low density residential. The Zoning Map is being amended to be consistent with the General Plan. The Downtown Precise Plan is being amended to reflect the actual development trends within the area, and to streamline development standards and guidelines.</p>	EIR	05/29/2002
1998012011	<p>City of Roseville Water Treatment Plant Expansion and 60-Inch Raw Water Pipeline Project</p> <p>Roseville, City of Roseville--Placer, Sacramento</p> <p>Existing clearwell storage facilities on the WTP site include two above-ground water storage tanks that can accommodate storage of six mg of water. The City proposes to construct an additional six mg of clearwell storage at the site. This storage would be accommodated by one 6 mg circular, prestressed concrete tank. This tank would be located near the northern boundary of the WTP site, just east of the two existing clearwell storage tanks. The bottom elevation of the proposed tank would be approximately 360 feet above mean seal level (msl) and the roof slab would be at approximately 387 feet msl. The reservoir diameter would be approximately 200 feet with a side water depth of approximately 25 feet. The tank will be partially buried as the existing ground slopes from elevation 380 to 365. In</p>	NOP	05/14/2002

2002042066	119 School Cruz Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of an Administrative Use Permit, Design Permit and Historic Alteration Permit to demolish and replace an existing garage and to remodel an existing house in a R-1-5 district. The proposed remodel consists of remodeling the existing porch and renovation of windows.	Neg	05/14/2002
2002042067	Hart Community Property Trust Siskiyou County Montague--Siskiyou The applicants propose a Use Permit and Reclamation Plan to establish and operate an open-pit gravel quarry within a 3,000+/- acre ranch. The quarry is planned to occupy a total of 58 acres with quarrying operations dedicated to three individually phased areas. Each area is planned to be phased in succession, with a 2 to 8 year life each. The quarry areas would be reclaimed as operations to relocate to the ensuing area. The rock quarry would be operated on a seasonal and intermittent basis for 20 years. 900,000 cubic yards of material are planned for harvest with annual production estimated at 20,000 to 100,000 cubic yards. Material excavation, screening, and crushing are all planned. Some blasting of material may be necessary as operations necessitate. No material batching is proposed. The proposed quarry would provide a continued rock source for road and construction materials. Simultaneous harvest and crushing of road materials from the existing quarry and the proposed quarry would only occur at a time when either the material within the existing quarry would near exhaustion or more likely, at a time when an additional operator would contract for material and could not locate their operations within the existing quarry site.	Neg	05/15/2002
2002042068	Caringello Electric Inc. Tentative Parcel Map and Zone Change Siskiyou County Mount Shasta--Siskiyou The applicant requests Tentative Parcel Map and Zone Change approval to rezone and divide a 33.5 +/- acre parcel into four parcels of 5.0 acres, 5.0 acres, 13.2 acres and a 5.0 acre remainder. The subject parcel is zoned R-R-B-40 (Rural Residential Agricultural with 5 acre minimum parcel size) and AG-2-B-40 (non-Prime Agricultural, with 40 acre minimum parcel size) and the proposed zone change would be to R-R-B-2.5 (Rural Residential Agricultural with 2.5 acre minimum parcel size).	Neg	05/17/2002
2002042069	SRCS D Primary Treatment Reliability Project Sacramento County Elk Grove--Sacramento The Primary Treatment Reliability Project would construct an additional battery of primary sedimentation tanks that, to the degree possible, "mirror" the existing primary sedimentation tanks at the SRWTP odor control facilities. Other facilities including one aerated grit tank, an area control center, grit dewatering building odor control facilities, and personnel facilities would be constructed as part of the proposed project. 2001052089	Petaluma Water Recycling Facility Project Petaluma, City of Petaluma--Sonoma This document has been prepared to evaluate potential impacts of the water recycling facility. The City proposes to demolish the existing facilities at 950 Hopper Street and construct new treatment facilities, capable of producing tertiary treated recycled water, at the existing oxidation pond site at 4400 Lakeville Highway. The proposed treatment process uses extended aeration and oxidation ponds. Algae removal is provided by a wetlands treatment system within the existing oxidation pond site. In addition, up to 45 acres on the adjacent Parcels, northwest of the existing oxidation ponds, will be developed into polishing wetlands. These wetlands will be returned to the secondary effluent and will be open for public access and education. The effluent from the polishing wetlands will be returned to the plant site for reuse or discharge. Also, the project includes a set of improvements titled River Access Improvements that will provide public recreational and educational amenities on the adjacent Parcels northwest of the existing oxidation ponds. These improvements have been formulated at a conceptual level and environmental review is also at a conceptual level.	SIR	05/29/2002

2001082005	Dannon Natural Spring Water Bottling Facility Regional Water Quality Control Board, Region 5 (Central Valley), Redding Mount Shasta--Siskiyou Danone Waters of North America (Dannon) has filed a Report of Waste Discharge (RWD) for the on-site discharge of bottle rinsewater to a proposed leach field with the Central Valley Regional Water Quality Control Board. The water bottling facility began operating in January 2001, and is currently bottling natural spring water for sale in regional markets throughout the western United States. In addition to proposing the construction and operation of a new on-site leach field, Dannon is proposing the addition of a third water bottling production line to the facility some time in the near future, depending on regional market conditions and consumer demand for bottled spring water.	NOD	
2001121049	Arlington Heights Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles The project involves the construction of an addition to the existing Arlington Heights Elementary School to serve students in grades K-5. The project will provide 442 new two-semester seats in 17 classrooms and underground parking.	NOD	
2001121066	East Valley Area New High School No. 1A Los Angeles Unified School District --Los Angeles The proposed new high school is comprised of a 315,000 square foot facility on a 30.99-acre site. The site is currently occupied by the Department of Water and Power Anthony Office Building. The proposed project would relieve overcrowding at Francis Polytechnic High School by providing 699 two-semester seats to accommodate a total enrollment of 980 ninth through twelfth grade students. <u>Documents Received on Monday, April 15, 2002</u>			
2001121085	Aldama Elementary School Addition Los Angeles Unified School District Los Angeles, City of--Los Angeles The projects involve the construction of additions to the existing Aldama Elementary School to serve students in grades K-5. The project will provide 216 net two-semester seats, 10 net classrooms, surface parking, multi-purpose room, kitchen, and a lunch shelter.	NOD	
2001121095	Commonwealth Avenue Elementary School Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles This project involves the construction of an addition to Commonwealth Avenue Elementary School to serve students in grades 1-5. The project will provide 414 new two-semester seats in 18 classrooms and underground parking. All studies conducted for the MND were based upon providing new two-semester seats.	NOD	
2001121134	Maywood New Elementary School No. 5 Los Angeles Unified School District Maywood--Los Angeles Construction and operation of a new elementary school on a 3.15 acre site to be acquired.	NOD	
2001122063	Anderson Creek Bridge Replacement Caltrans #3 Booneville--Mendocino The proposed project involves replacing the Anderson Creek Bridge on Highway 128 at the north end of Booneville, California. The new bridge will be built to current highway design standards, include a left-turn lane and clear-span Anderson Creek thereby alleviating the recurring scouring problems at the site.	NOD	
2002011076	Dena New Primary Center Los Angeles Unified School District Los Angeles, City of--Los Angeles Construction and operation of a new primary school on a 2.92 acre site to be acquired.	NOD	
2002012048	Carrico Lot Line Adjustment, LLA-01-13 Humboldt County Planning Department Blue Lake--Humboldt A Lot Line Adjustment between APN 516-211-13 (Parcel 2), 516-211-17 (Parcel 1) and 516-211-19 where the acreage of 516-211-19 would be merged with Parcel 1; Parcel 2 would be reconfigured and Parcel 3 would become a portion of the Parcel 2. All three parcels are currently undeveloped. The purpose of the lot line adjustment is to allow for development of the three parcels in accordance with the physical features of the property. On-site water and on-site sewage disposal systems would have to be developed for each parcel. NOTE: Post-referral, the applicant proposes to shift the line separating reconfigured Parcel 1 and 2 to the north to increase Parcel 1 (Parcel "A") to 8.8 acres, reducing Parcel 2 (Parcel "B") to 5.6 acres. This change is non-substantive in that none of the identified building areas or access will change and the resultant parcels will remain consistent with the 2.5 acre parcel size per zoning. These changes are reflected in bold italic.	NOD
